

HPF-C Series Cantilever Tailgates

Lifting Australian Industry

HPF-C Series Cantilever Tailgates

HPF Tailgates meet and exceed Australian standards and have been developed in close association with the Australian transport industry. There are models to suit all vehicles, from utilities to semi-trailers, with our custom service being able to supply a solution for everything in between.

Cantilever Tailgates

Load capacities from 500kg to 1000kg

The HPF-C Series is ideal for mounting onto a variety of vehicles from utes to semi-trailers. The HPF Cantilever Series is available in capacities ranging from 500kg to 1000kg with out 750kg and 1000kg cantilevered tailgates utilising a wide frame with twin hydraulic cylinders to give a more stable and robust tailgate whilst allowing a towing mechanism to be fitted.

Standard Features

- Steel chequer plate or mesh construction
- Chrome hardened pivot pins
- Self lubricating bushes
- Two lift cylinders on 750kg and 1000kg
- Two button handheld remote control
- Battery Isolator switch
- Spring assist closure
- Gravity lowered platform reduces battery drain
- Flow control valve adjusts platform decent
- Travel locks to secure closed platform
- Platform level adjuster
- Wide frame lift mechanism improves stability
- Self closer mechanism
- Allows for towing mechanism to be fitted
- Available in 12 or 24 volt
